Bitconnect 2.0 Whitepaper

Introduction

Bitconnect 2.0 is a meme token designed to unite the crypto community through humor and innovation.

Our mission is to provide a second chance to all those who were affected in the past, with a community-focused and

transparent tokenomics model.

Tokenomics

- Total Supply: 28 million tokens (fixed supply).

- Distribution:

  * 50%: Community (Airdrop and rewards)

  * 25%: Liquidity for DEXs

  * 15%: Staking and rewards

  * 10%: Development and growth

Airdrop Details

- Exclusive airdrop event for community members.

- Requirements: Follow social media, share content, and register via the official form.

- Tokens are distributed on a vesting schedule:

  * 10% upfront release.

  * 90% released linearly over 12 months.

Roadmap

Bitconnect 2.0 Whitepaper

2025 Roadmap:

- Q1: Airdrop launch, initial mint, liquidity on Raydium and Orca.
